

# DISPOSABLE GLOVES

**CHOICE**<sup>™</sup>  
PRODUCTS

## CHOICE Disposable Gloves

Disposable gloves have become a mainstay in food handling, assembly, inspection and generalized cleaning industries. CHOICE Disposable Gloves are now available in **Vinyl, Synthetic, Latex & Nitrile**.

### Vinyl

Excellent feel, hypoallergenic materials and a very economical price point. CHOICE Vinyl Gloves are a great all-around choice for all of your non-medical applications.

### Synthetic

Great choice for users who like the feel and comfort of latex but wish to avoid potential allergy issues. Smooth, hypoallergenic vinyl feels “creamy” and is virtually indistinguishable from latex.

### Latex

The original premium rubber glove material. High-quality natural latex delivers superior comfort, fit and tactile sensitivity for today's non-medical uses.

### Nitrile

Excellent resistance to punctures and a broad spectrum of chemicals. Blue color makes it easy to retrieve glove pieces from foods in the event of mishaps. Great replacement for latex in today's non-medical applications.

#### VINYL - Lightly Powdered

Part #	Size	Pkg	Wt
GVPS100-10B	S	10/100	11
GVPM100-10B	M	10/100	12
